

Nickel Rotary Screen

Nickel Rotary Screen

Our Rotary Nickel Screen mesh ranges from 25mesh to 165mesh, thickness 100 micron to 400 micron and length from 1000mm to 3800mm. We provide repeat 640mm, 820mm, 914mm, 1018mm which are of, high quality and can replace the similar products as well from Europe. All other specifications could be customized.

Our company pays great attention to product quality, our quality control department inspects every piece of Rotary Screen for the surface appearance, thickness, circumference, open area, and makes sure of no exceeded block holes.

Customers' satisfaction is our greatest affirmation!

ROOPA SCREEN PVT LTD. the top Rotary Nickel Screen producer in INDIA, has 18 years of experience in manufacturing, exporter, marketing, research & development.

It all began as our dream – to redefine the standards in INDIA for printing screen industry. With all the knowledge and the experience as a guiding beacon, we have moved ahead with steady strides and constant zeal to become one of the renowned company in INDIA.

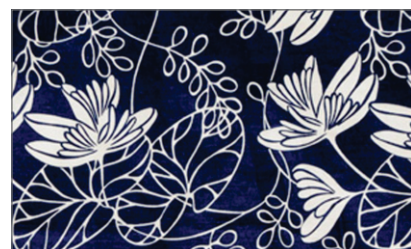

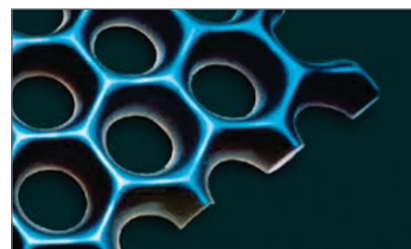

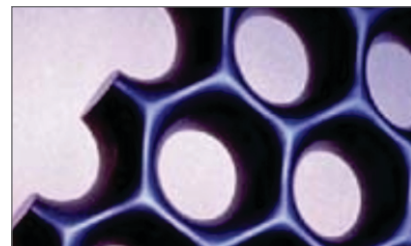

Our fully modern equipments along with very hardworking, capable and qualified team has enabled us to achieve high standards and prestige in the Rotary Printing Screen industry. The well-deserved success of **ROOPA SCREEN PVT LTD.** lies in the philosophy of quality as it is the utmost both for customer and us. The commitment and dedication to achieve this philosophy has resulted in satisfying all our customers. For the past years, we have served hundreds of customers worldwide.

Finally, we want to convey that our motto of satisfaction to both the customers and the employees has made us reach the place where we are today.

Thanking and looking forward to hear from you soon and assuring our best services at all the times.

ROOPA SCREEN PVT LTD. is committed to operate a successful business by developing, manufacturing, marketing and supporting quality Rotary Printing Screens for the world textile printing industry. We will accomplish this goal by:

- Developing long-term relationships with our customers.
- Providing super quality product at competitive prices.
- Exceeding industry standards with exceptional customer and technical service.
- Maintaining our competitive position through leading edge technology.

Delta Screens/Penta Screens are the best choice for fine cotton, silk, polyester or any other lighter grades of good quality fabric.

Delta Screens/Penta Screens produced by **ROOPA SCREEN PVT LTD.** are with the technology from Switzerland. Top selling of all our products range can be used for finer outlines, tonal effects, better penetration, geometric designs, half tone etc. Delta Screens/Penta Screens will help you to achieve unique designs and beautiful patterns with color combinations.

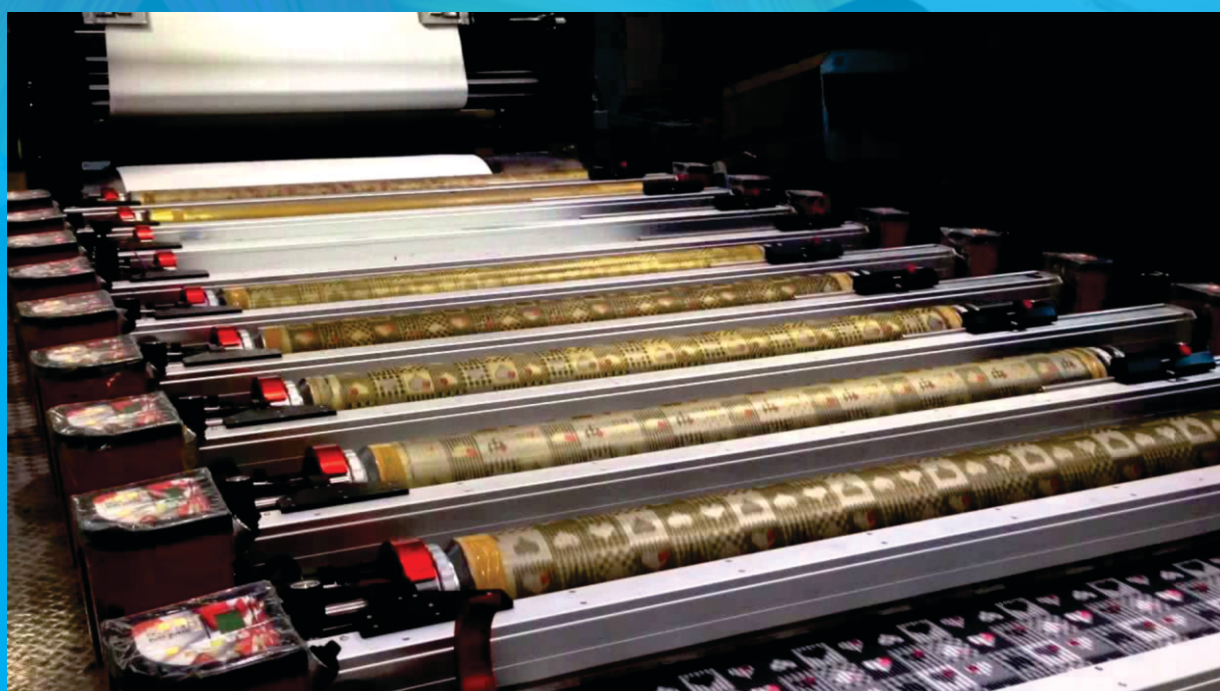

Quality of Delta Screen/Penta Screens get positive comment from customers worldwide, featured with:

- Uniform open area, better paste penetration
- High ductility, higher printing speed
- Sharp result with high viscosity
- Lower squeegee pressure
- Enhance the adhesion of photo emulsion
- Cost-saving & reliable

Standard Screens are the reliable choice for the basic designs, featured with big holes and strong dams, which is favorable for the penetration of dyestuff. Standard Screens are normally used for coarse substrates, blotches, deeper penetration, gold and bronze prints.
